

Asset Finance

Professional Practices

For any business, preserving cash flow is of great importance and Asset Finance can play a key role in protecting working capital for professional practices.

At Lloyds Bank, we have a range of Asset Finance based solutions that are designed to support our clients' needs and address the challenges of funding both Professional Indemnity Insurance (PII) costs and annual tax liabilities.

PII Premiums

The growing cost of funding PII means that many legal and accountancy practices are looking to spread the expense to avoid having to make a substantial single payment.

At Lloyds Bank we can offer an Asset Finance solution to spread these PII premium costs over a year, helping provide a more flexible, cash flow friendly means of financing renewals. Our facility covers the premium as well as practice certificate costs and broker commissions.

Key features of the Lloyds Bank PII Funding Facility

- Available to sole trader/partner legal and accountancy practices, including Limited Liability Partnerships (LLPs) and limited companies
- Repayment period of up to 12 months, usually with one month in advance
- Dedicated support team to ensure prompt set-up of agreement and quick response to queries
- Full supporting financial information is required to set up agreement
- Subject to a minimum advance in excess of £25,000

Tax Funding

As with PII, the payment of biannual personal tax liabilities can create pressure on cash flow. Lloyds Bank can now provide a funding solution for legal practices to help spread the cost over a longer period.

With tax liabilities due in both January and July of each year, we can offer a facility to spread the half yearly payments over a six-month term.

Key features of the Lloyds Bank tax funding facility

- Available to LLPs and partnerships with four or more partners or members
- Repayment period of up to six-months
- Available to existing clients of Lloyds Bank
