

OPEN BANKING OUR PERFORMANCE

Business
January – March 2025

LLOYDS BANK

Open Banking – a quarterly report

What can this report tell me?

This report is a good way for you to see how we're performing in Open Banking for our Business customers who use Online for Business.

We'll usually publish it four times a year and it will help you to see:

- how long all of our online services are up or down (otherwise known as 'uptime' or 'downtime').
- how long all of our online services take to respond to each and every request.
- how frequently we have errors that mean that other websites or apps can't talk to our systems.

Why do we publish this?

We do this, because both the European Banking Authority and the Financial Conduct Authority want to make sure that you're getting the best possible service – as do we. This means that each and every financial provider in Open Banking needs to publish the same types of data.

How can I find out more about Open Banking?

To find out more about what we offer and how we're doing it, take a look at our Open Banking pages.

www.lloydsbank.com/online-banking/open-banking

If you're more interested in the technical side, take a look at the Open Banking Standard pages.

Service availability

January - March 2025

We aim to be available all the time. But, from time to time, there might be some planned or unplanned downtime. The bar chart and figures below, show just how available we've been this quarter.

How long our service has been available for (%)

What the source data looks like

		Open Banking	Online for Business	Business Mobile Banking
January	Availability	98.86%	99.90%	99.84%
	Planned downtime	0m	45m	1h 13m
	Unplanned downtime	8h 28m	0m	0m
February	Availability	99.93%	100.00%	99.94%
	Planned downtime	2m	0m	5m
	Unplanned downtime	28m	2m	19m
March	Availability	99.57%	99.95%	99.75%
	Planned downtime	0m	14m	1h 6m
	Unplanned downtime	3h 12m	8m	47m

Account information services

January - March 2025

We like to measure how long it takes us to respond to each account information request. So, whatever information you're sharing, we will always track how fast we are. The bar chart and figures below, show just how quick we've been this quarter.

How long it's taken us to respond to account information requests (in milliseconds)

What the source data looks like

	Open Banking	Online for Business	Business Mobile Banking
January	351ms	2,106ms	654ms
February	372ms	2,112ms	692ms
March	344ms	2,147ms	694ms

Payment services

January - March 2025

We like to measure how long it takes us to respond to each payment request. So, whatever payment's being set up, we will always track how fast we are. The bar chart and figures below, show just how quick we've been this quarter.

How long it's taken us to respond to payment requests (in milliseconds)

What the source data looks like

	Open Banking	Online for Business	Business Mobile Banking
January	1,777ms	5,489ms	876ms
February	1,779ms	5,338ms	869ms
March	1,611ms	5,343ms	866ms

Funds checking services

January - March 2025

We like to measure how long it takes us to respond to each funds checking request. So we will always track how fast we are. The bar chart and figures below, show just how quick we've been this quarter.

How long it's taken us to respond to funds checking requests (in milliseconds)

What the source data looks like

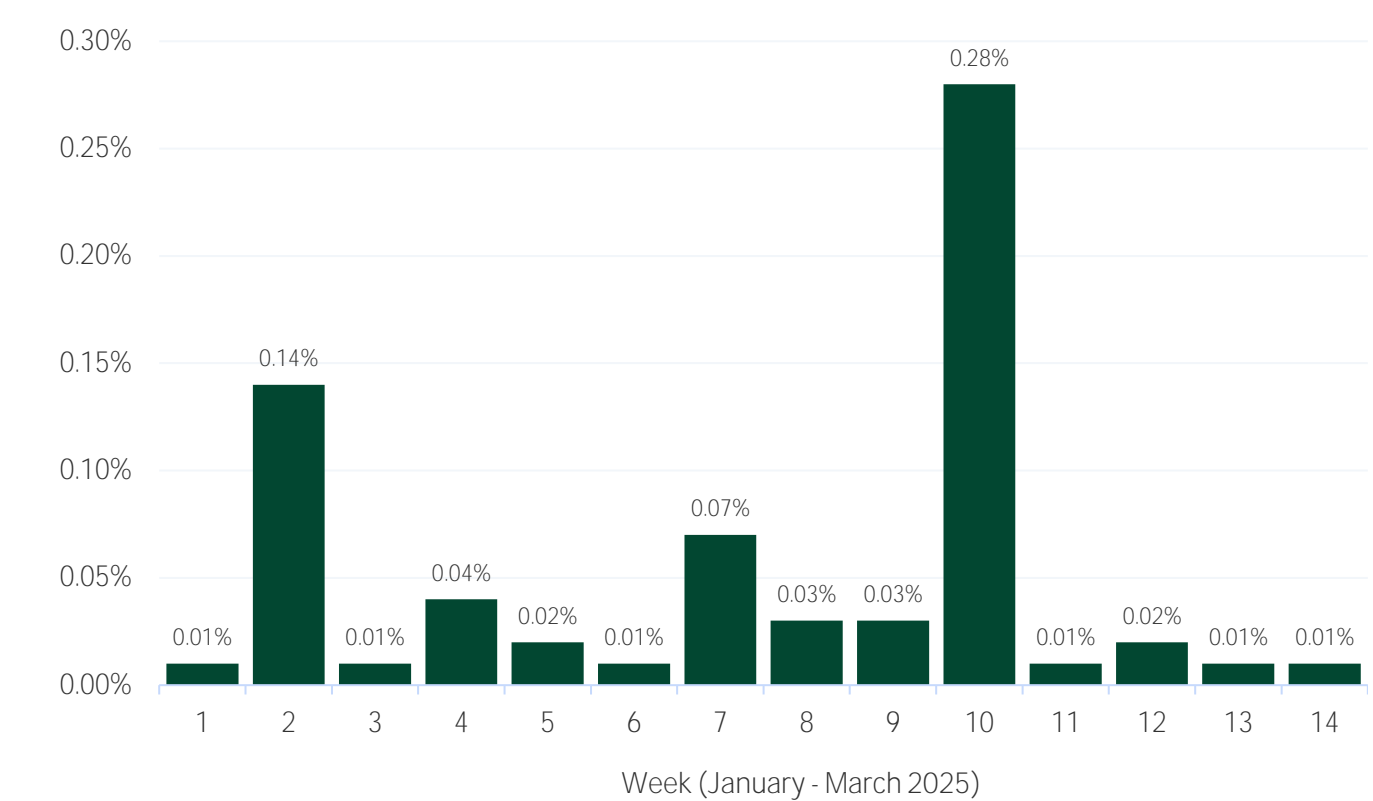

Open Banking	
January	574ms
February	552ms
March	492ms

Error rates

January - March 2025

Sometimes, when a website or app tries to talk to our systems, there may be a problem. If we can't provide them with an access point (also known as an 'API'), then the request will fail and we will report it as an error. The bar chart and figures below, show the error rates this quarter.

What our error rates have been (%)

What the source data looks like

Week	1	2	3	4	5	6	7	8	9	10	11	12	13	14
Rate (%)	0.01	0.14	0.01	0.04	0.02	0.01	0.07	0.03	0.03	0.28	0.01	0.02	0.01	0.01
