## Figures at a glance

### Financial Strength H1 2023

- Our Group loan to deposit ratio now stands at 96% compared to over 154% in 2010, resulting in a lower wholesale funding requirement; the significant improvement in this measure is a result of the growth in customer deposits and the reduction in non-core assets.
- Our Group customer deposits now stand at £470bn, reflecting continued inflows to our trusted brands.
- Our balance sheet position remains among the strongest of our major banking peers worldwide – a Common Equity Tier 1 ratio of 14.2% after dividend accruals.
- Group net income was at £9.2bn for H1 2023.

\*\*\* Credit Default Swap Spread in Euros. A credit default swap is a type of credit derivative. It is an arrangement whereby the credit risk of an asset is transferred from the buyer to the seller of protection. The entity selling protection receives premium or interest-related payments in return for contracting to make payments to the protection buyer upon a defined credit event (e.g. bankruptcy or downgrades by a rating agency).
