

LloydsLink Online - Excel - File Format

(May 2014)

We are making changes to some of the statement narratives (transaction descriptions) on LloydsLink Online. As a result, some of the transaction types and transaction codes on the reports you download from LloydsLink Online may change. This means you may need to make changes to your reconciliation arrangements or back office systems to accommodate this.

This document updates the information on the file formats that is currently available from the LloydsLink Online website. The tables illustrate the "As is" and "To be" narratives and explain what is changing.

Excel

The Microsoft Excel export option produces a file which uses cells to delimit each field.

Example

A statement export would look as follows:

	A	B	C	D	E	F	G	H
1	Account	Date	Type	Narrative	Value Date	Payments	Receipts	Balance
2	301775-00059618 (GBP)	09/09/2013		Opening Ledger Balance				55.54
