# UK Consumer Digital Index 2020
## Spotlight on consumers in the East Midlands

### Regional Summary

The proportion of people offline in the East Midlands remains higher than the UK average, and fewer than average say that they have been able to find a new job online. This could be due to specific parts of this region having shown decreasing requests for digital skill related roles in job advertisements, which may in turn have impacted the focus placed on developing these competencies. Additionally the region also has a greater proportion of manufacturing related businesses which insight from the report shows is not a leading sector for workplace digital skills.

- **UK:** n=2710
About Us
Over the last six years, the Consumer Digital Index data and work with partners our and charities, has enabled Lloyds Banking Group to establish an understanding of UK digital adoption. This has been not just to inform our own propositions such as the Lloyds Bank Academy, but also to use our scale for good and to help shape the digital landscape for UK plc. By providing regional insights, we hope this will provide targeted insights for more tailored solutions across the UK.

Case Study
“I have supported a Coventry based charity for over 2 years who support adults of working age who are at a low point in life and are struggling with mental ill health. As we were put into lockdown due to Covid-19 I checked in with my mentee just to see how she was feeling, I suggested we have a catch up via Zoom to discuss how the charity was adapting to the new social distancing measures and restrictions. We implemented WhatsApp groups to those who didn’t want to be on screen or couldn’t use video conferencing. We also discussed the importance of keeping social platforms up to date, fun and informative”
Dan Sharkey, Lincoln

Benefits of being online
Region | Utility bills savings a year | UK
---|---|---
East Midlands | £354 Vs £348 | £348
It makes me feel part of a community | 45% Vs 47% | 47%
Helps me to connect better with friends and family | 82% Vs 81% | 81%
It has helped me to get a job | 47% Vs 49% | 49%

Key Foundation Task Statistics*
- Must be able to do task on their own

<table>
<thead>
<tr>
<th>Task</th>
<th>East Midlands</th>
<th>England</th>
</tr>
