

# UK Business Digital Index 2017 Appendix

Benchmarking the digital  
maturity of small businesses  
and charities in the UK

LLOYDS BANK

# INTRODUCTION AND CONTENTS

The report contains research from 1,500 small businesses and 500 charities into attitudinal behaviours and uses of digital within their organisations.

To ensure published findings are statistically significant and meaningful throughout the report, care has been taken to only reference within the body of the report those year-on-year changes that meet statistical significance criteria.

Please note that within graphs, figures have been displayed as they are, meaning that minimal differences might not be statistically significant.
