How we made our decision

Before we close a branch, we carefully consider and analyse how customers will be affected, including:

- How customers are choosing to bank with us
- How often customers use the branch and how this is changing
- Current services available in the branch and the branch opening hours
- Visiting the branch to consider the location and understand the alternative ways to bank in the area
- Assessing the local transport services, and how often they run
- Reviewing the broadband availability in the area
- How our customers, including those who are vulnerable or may need extra support would be affected
- We've shared our plans to close this branch with LINK who have independently assessed the access to cash needs of the local community.

If you'd rather speak to someone independent, these organisations can offer help and debt advice for as long as you need it. And they can talk to us for you if you'd like them to.

Talking to us, or an independent organisation, won't affect your credit score. And if one of the options we talk about does - we'll explain what this means for you before we set anything up.
