

OPEN BANKING OUR PERFORMANCE

Retail April – June 2025

Open Banking – a quarterly report

What can this report tell me?

This report is a good way for you to see how we're performing in Open Banking. We'll usually publish it four times a year and it will help you to see:

- how long all of our online services are up or down (otherwise known as 'uptime' or 'downtime').
- how long all of our online services take to respond to each and every request.
- how frequently we have errors that mean that other websites or apps can't talk to our systems.

Why do we publish this?

We do this, because both the European Banking Authority and the Financial Conduct Authority want to make sure that you're getting the best possible service – as do we. This means that each and every financial provider in Open Banking needs to publish the same types of data.

How can I find out more about Open Banking?

To find out more about what we offer and how we're doing it, take a look at our Open Banking pages. www.lloydsbank.com/online-banking/open-banking

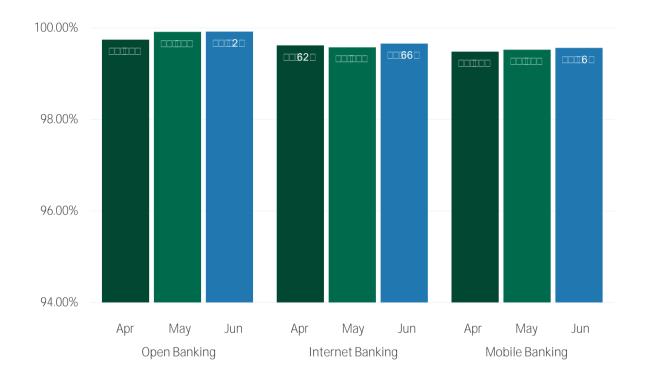

If you're more interested in the technical side, take a look at the Open Banking Standard pages. standards.openbanking.org.uk

Service availability

April - June 2025

We aim to be available all the time. But, from time to time, there might be some planned or unplanned downtime. The bar chart and figures below, show just how available we've been this quarter.

How long our service has been available for (%)

		Open Banking	Internet Banking	Mobile Banking
	Availability	99.75%	99.62%	99.48%
April	Planned downtime	0m	10m	50m
	Unplanned downtime	1h 50m	2h 35m	2h 54m
	Availability	99.91%	99.58%	99.53%
May	Planned downtime	0m	9m	7m
	Unplanned downtime	38m	3h	3h 25m
	Availability	99.92%	99.66%	99.56%
June	Planned downtime	8m	1h 34m	1h 53m
	Unplanned downtime	26m	53m	1h 16m

Account information services

April - June 2025

We like to measure how long it takes us to respond to each account information request. So, whatever information you're sharing, we will always track how fast we are. The bar chart and figures below, show just how quick we've been this quarter.

How long it's taken us to respond to account information requests (in milliseconds)

	Open Banking	Internet Banking	Mobile Banking
April	322ms	2,460ms	966ms
May	365ms	2,498ms	924ms
June	320ms	2,608ms	905ms

Payment services

April - June 2025

We like to measure how long it takes us to respond to each payment request. So, whatever payment's being set up, we will always track how fast we are. The bar chart and figures below, show just how quick we've been this quarter.

How long it's taken us to respond to payment requests (in milliseconds)

	Open Banking	Internet Banking	Mobile Banking
April	1,521ms	4,233ms	2,756ms
May	1,695ms	4,340ms	2,976ms
June	1,436ms	4,373ms	2,635ms

Funds checking services

April - June 2025

We like to measure how long it takes us to respond to each funds checking request. So we will always track how fast we are. The bar chart and figures below, show just how quick we've been this quarter.

How long it's taken us to respond to funds checking requests (in milliseconds)

	Open Banking					
April	446ms					
May	507ms					
June	441ms					

Error rates

April - June 2025

Sometimes, when a website or app tries to talk to our systems, there may be a problem. If we can't provide them with an access point (also known as an 'API'), then the request will fail and we will report it as an error. The bar chart and figures below, show the error rates this quarter.

What our error rates have been (%)

Week	14	15	16	17	18	19	20	21	22	23	24	25	26	27
Rate (%)	0.07	0.08	0.02	0.14	0.02	0.01	0.02	0.01	0.09	0.04	0.02	0.07	0.01	0.02
